## Executive Summary

Ministry of Health & Family welfare has introduced an innovative web based application called Mother and Child Tracking System (MCTS) with the objectives to

- (i) Facilitate timely delivery of all services to pregnant women and children
- (ii) Strengthen health care service delivery system,
- (iii) Improve service delivery coverage and
- (iv) Monitoring mechanism at all level.

MCTS has been implemented across the country and currently, all the States/UTs are reporting regularly on MCTS portal.

Due to the changing data requirements of National Reproductive and Child Health (RCH) programmers, the Ministry has designed RCH portal, wherein, Eligible Couples, Pregnant Women and Children will be tracked for health care service delivery to them. The RCH portal will transit MCTS portal in phase manner.

The RCH portal will further strengthen health care delivery system; improve service coverage and monitoring mechanism. The use of this information for early identification and management of basic complications during pregnancy, childbirth and post-partum period at field level will help in reducing the maternal, neonate and infant mortality rates and support to achieve the Millennium Development Goal (MDG) numbers four and five.

## Data Entry Process Flow

### Step 1: Identification Process of Beneficiaries

- The data collected through household surveys as well as through regular identification should be recorded in the integrated Reproductive Child Health (RCH) register version 1.1
- Subsequently this data should be transferred to the data entry point for entry into the RCH portal.

### Step 2: Registration Process of Beneficiaries

- After the identification,
- The ANM will immediately register each beneficiary in her integrated RCH register version 1.1
- These beneficiaries will include those identified during household surveys, through regular identification by the ASHA between two household surveys and any new beneficiaries coming to Village Health and Nutrition Day (VHND) site directly.
- The ANM will not provide any ID number to the beneficiary.
- After recording in the register, this data will be transferred to the Data Entry Operator (DoE) RCH portal, and once entered the RCH portal will generate a unique ID number for each beneficiary which will be written on the RCH register afterwards.

### Step 3: Recording Tool: Integrated RCH register Version 1.1

The ANM should use the Integrated RCH register to register beneficiaries and for updating services provided to each beneficiary. The RCH portal at the national level changes as per variables present in this register. States using state specific name based tracking system should incorporate necessary changes in their portal as per the need of this register and national level RCH portal. There is separate register for each village and if the ANM happens to be in charge of five villages she will be making five different registers.

A state can incorporate state specific variables if necessary for the state portal but all national level indicators should not be missed.

This register has the following parts:

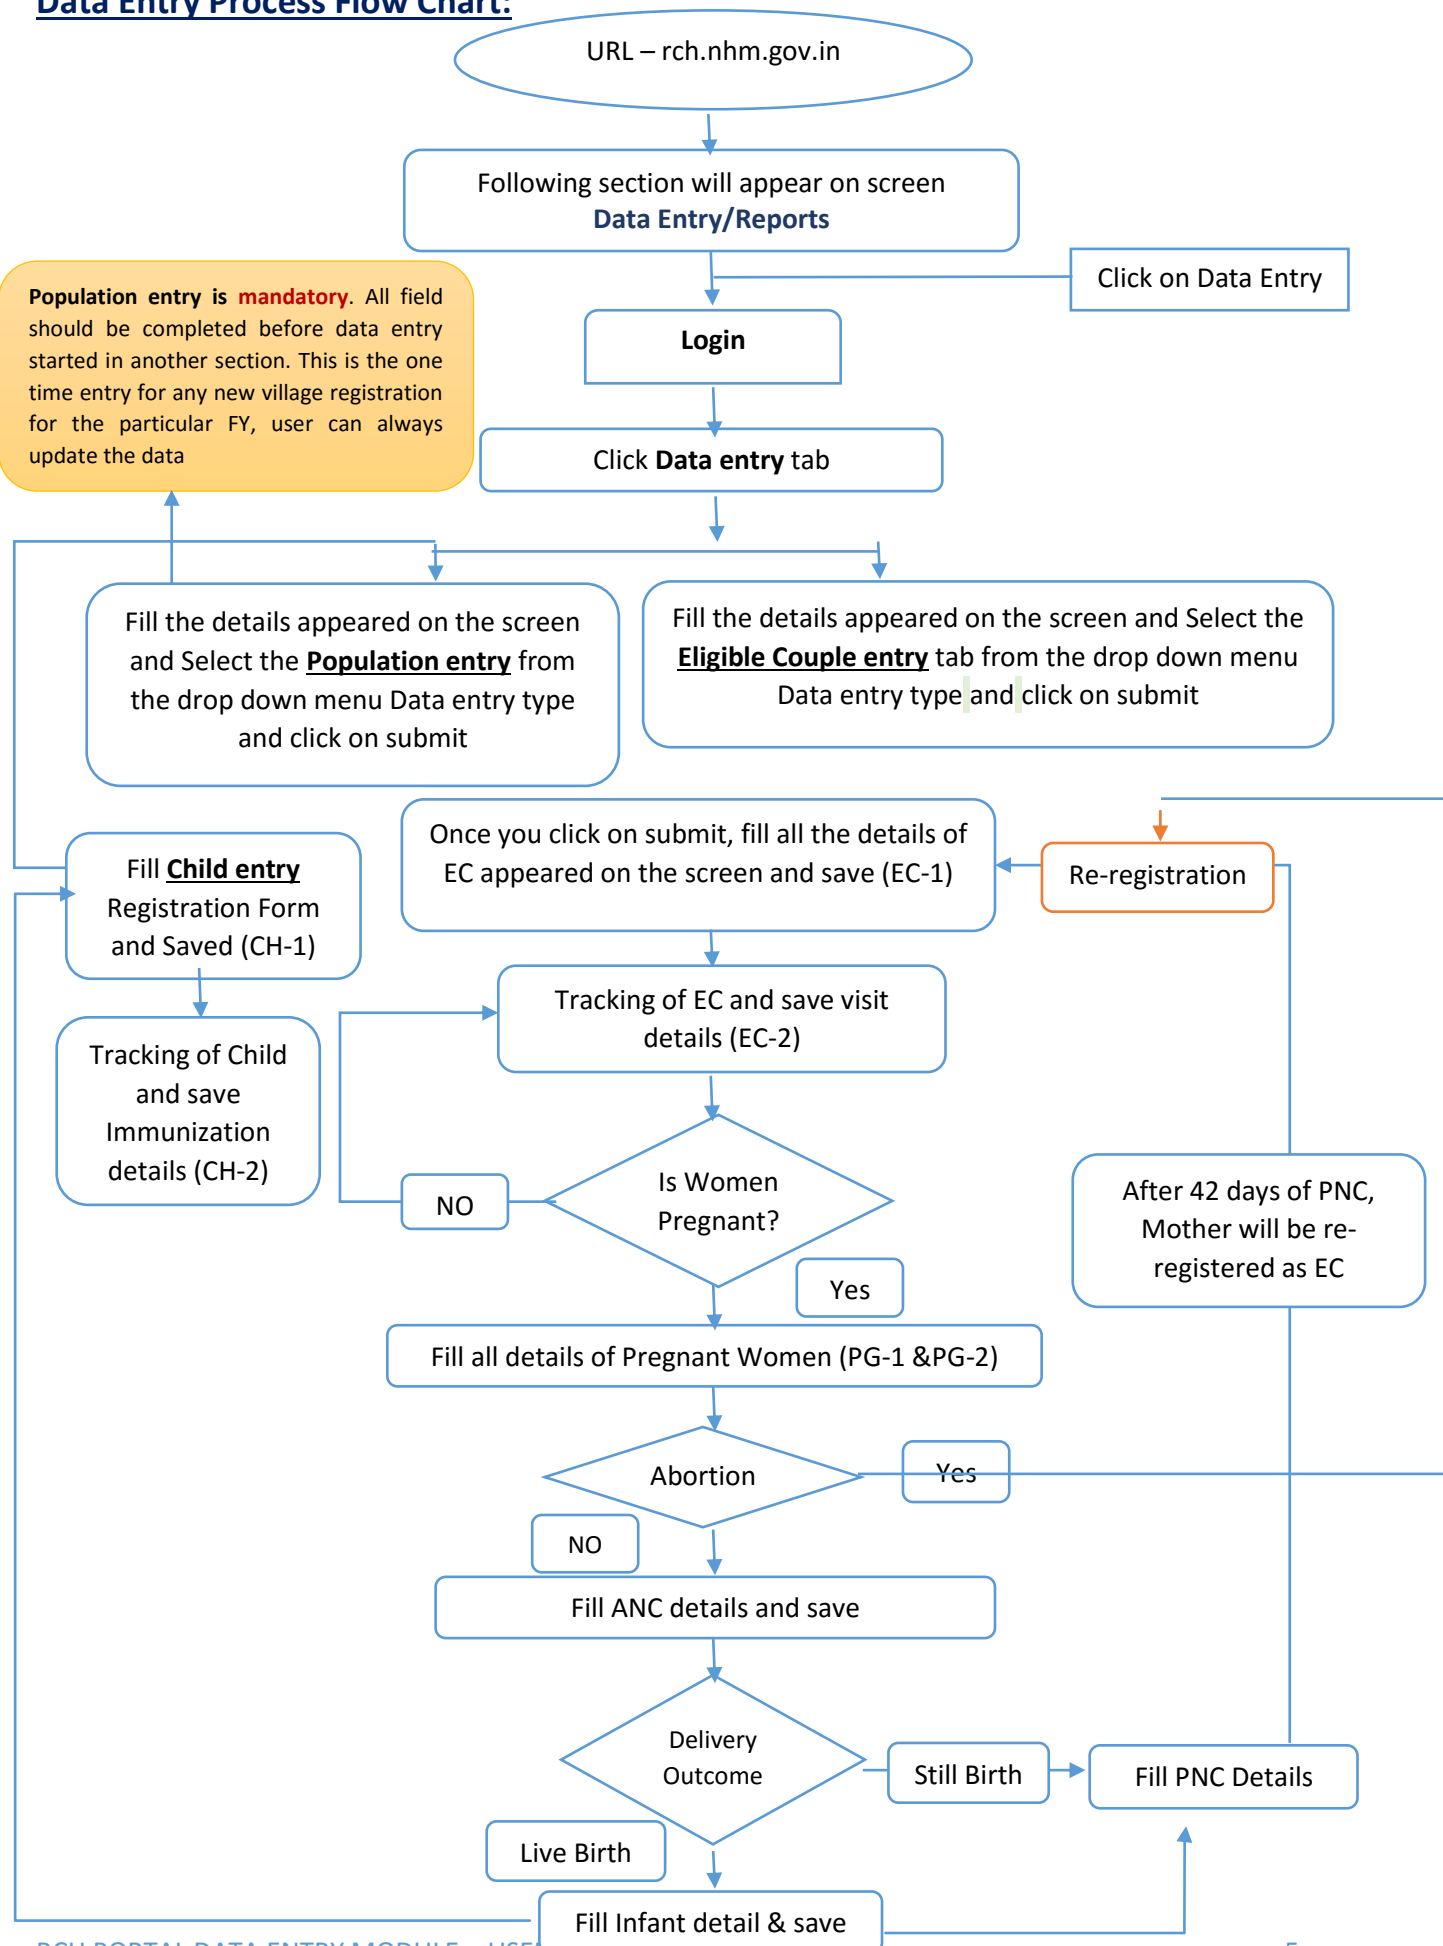

- Village-wise information (Profile Entry)
- Section 1: Tracking of Eligible Couples and use of contraceptives
- Section 2: Tracking of Pregnant Women
- Section 3: Tracking of Children
- Section 4: Annexures

- ✓ Ready Reckoner Calendar for Calculation of Expected Date of Delivery (EDD) from the date of last menstrual period (LMP)
- ✓ National Immunization Schedule for Infants, Children and Pregnant Women
- ✓ Record of each immunization session (Sample summary tables for ANM for monthly reporting)
- ✓ Abbreviations

### **Responsibilities of Data Entry Operator**

- Ensure that data is received from all ANMs in time
- Ensure timely data entry into the RCH portal for all beneficiaries registered in the integrated RCH register version 1.1
- Ensure that system has generated unique IDs for all beneficiaries and share the list with ANMs.
- Give feedback to ANMs on incomplete, unclear, or unreadable information.

## Data Entry Process Flow Chart:

## Home Page

The URL for **Reproductive & Child Health**: <http://rch.nhm.gov.in>

The Main screen of the RCH application is as follows:

Click on **Data Entry tab**<sup>1</sup>

**Reproductive and Child Health**  
Health and Family Welfare Department  
Government of India

**Data Entry**  
**Reports**

### Welcome to Reproductive Child Health (RCH)

When a mother dies, children lose their primary caregiver, communities are denied her paid and unpaid labour, and countries forego her contributions to economic and social development.

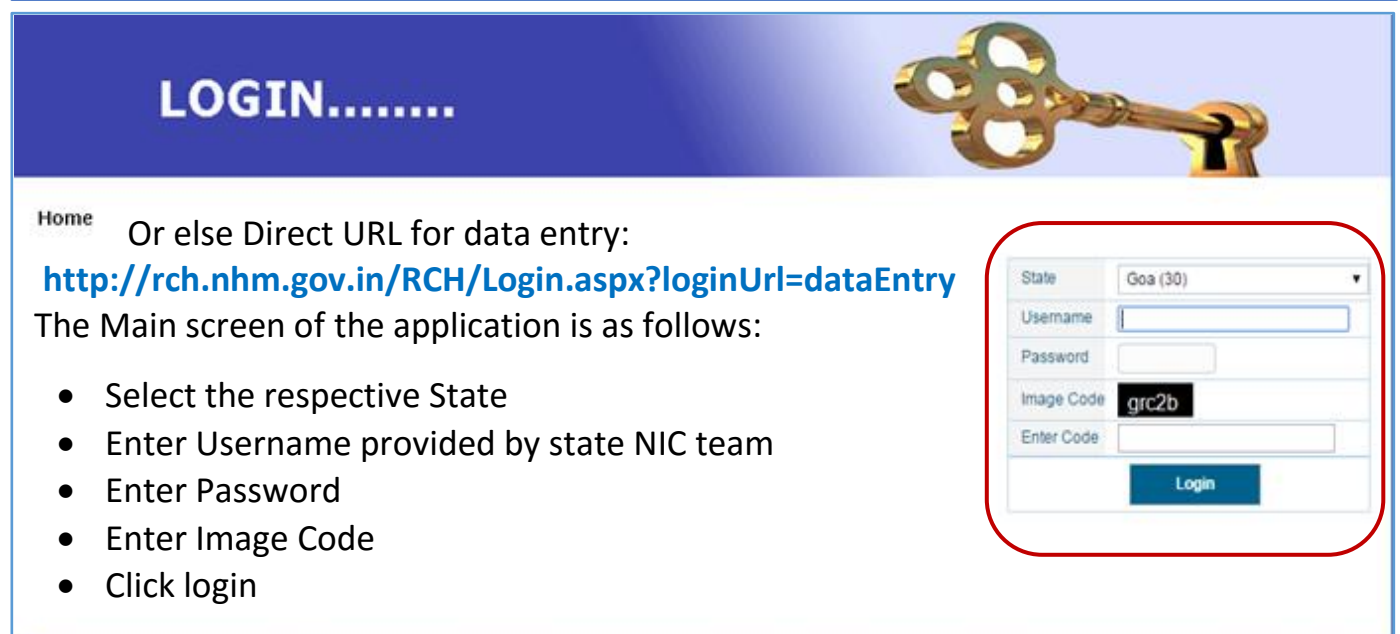

A woman's death is more than a personal tragedy—it represents an enormous cost to her nation, her community, and her family. Any social and economic investment that has been made in her life is lost.

More than a decade of research has shown that small and affordable measures can significantly reduce the health risks that women face when they become pregnant. Most maternal deaths could be prevented if women had access to appropriate health care during pregnancy, childbirth, and immediately afterwards.

## LOGIN.....

**Home** Or else Direct URL for data entry:  
<http://rch.nhm.gov.in/RCH/Login.aspx?loginUrl=dataEntry>

The Main screen of the application is as follows:

- Select the respective State
- Enter Username provided by state NIC team
- Enter Password
- Enter Image Code
- Click login

State: Goa (30)  
Username:   
Password:   
Image Code: grc2b  
Enter Code:   
**Login**

<sup>1</sup> (Note: The user ID and password will be provided to each state respectively. User id for district, blocks etc. will be provided by the state administrator.)

Screen appears as follows:

Before Start data entry, User firstly set the data entry hierarchy and click on 'Set' button.

The screenshot shows a web application interface with a top navigation bar containing links: Home, Data Entry, AdvancedSearch, Verification, Admin, Master Entry, Workplan, and MCTS Data. Below this is a blue banner with the text 'Welcome to Reproductive and Child Health' and a 'Close' button. The main form is titled 'After login set the data entry hierarchy'. It contains several dropdown menus and radio buttons for setting the data entry hierarchy. A yellow box on the left contains three numbered instructions: 1. Select District, 2. Choose either Rural or Urban, Health Block/Ward as per the state requirement (Preferably Health Block), and 3. Select Health Facility type, Health Facility, Sub Facility/Sub Centre and Village. Red lines connect these instructions to the corresponding fields in the form: 'District' to the first dropdown, 'Rural' to the first radio button, 'Health Block/Ward' to the second radio button, and 'Health Facility type, Health Facility, Sub Facility/Sub Centre and Village' to the remaining four dropdowns. A 'Set' button is at the bottom right of the form.

1. Select **District**

2. Choose either **Rural** or **Urban**, **Health Block/Ward** as per the state requirement (Preferably Health Block)

3. Select **Health Facility type, Health Facility, Sub Facility/Sub Centre and Village**

After set the data entry hierarchy Main Menu screen appears.

Main Menu screen appears as follows:

Main Menu has a Menu Bar with various options i.e. **Home, Data Entry, Content upload, Verification, Admin, Master Entry and Logout.**

There is also a search section at the upfront of the page that can be used as quick search/Update If Eligible Couple/Pregnant Women/Child ID is available, to go directly to data entry screen without entering location details:

The screenshot shows the Main Menu screen of the Reproductive and Child Health portal. At the top is a blue banner with the text 'Reproductive and Child Health', 'Health and Family Welfare Department', and 'Government of India'. Below this is a navigation bar with links: Home, Data Entry, AdvancedSearch, Verification, Admin, Master Entry, Workplan, and MCTS Data. A 'Log Out' button is circled in red. Below the navigation bar is a blue banner with the text 'Welcome to Reproductive and Child Health' and a 'Go' button. Below this is a search section with a text input field labeled 'Search Eligible Couple / Mother / Child :'. Below the input field is a button labeled 'Enter for active RCH / MCTS ID No. Go'. On the right side of the page, there is a sidebar with links: GOI, State, News, and Notification.

## Data Entry

Click on the **Data Entry** tab of the Main Menu screen,

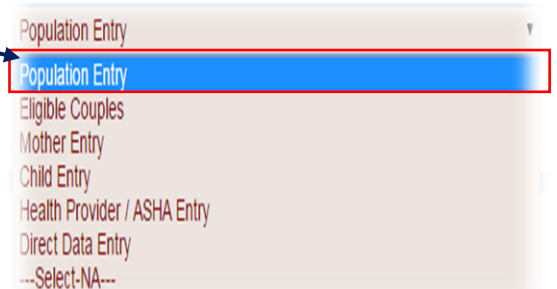

By clicking on the **Data Entry** tab of the Main Menu screen, the following screen will appear:

District : *	Sepahijala District(5)
Label	<input checked="" type="radio"/> Rural <input type="radio"/> Urban
Health Block / Ward : *	<input checked="" type="radio"/> Health Block/Ward <input type="radio"/> Taluka/Tehsil/Sub District
Health Facility Type : *	Primary Health Centre (PHC)
PHC : *	Dayarampara PHC (126)
SubFacility / SubCentre :	Golaghati (Sub-centre) (744)
Village / Gram Panchayat:	--ALL--
Data Entry Type :	---Select-NA---
<input type="button" value="Submit"/> <input type="button" value="Search"/>	

#### 4. How to choose **Data Entry** type?

- **Population Entry** (This is the first step and mandatory field for new village registration at RCH Portal for Data Entry)
- **Eligible Couples**
- If pregnancy status of Women (Registered Eligible Couple) is confirmed, automatically it will shift to pregnant women section
- **Pregnant Women**
- **Child Entry**
- **Health Provider/ASHA Entry**
- **Direct Data Entry**

## Population entry

**Population Entry** form will have information about estimated no. of ECs, Pregnant Women and Infants and will also contains details of the Health Provider and will be registered for current financial year only.

For Population Entry following fields are mandatory (\*):-

- ★ Population of the Village.
- ★ Total no. of Eligible couples.
- ★ Estimated No. of Pregnant women in a Year.
- ★ Estimated No. Of Infant in a Year.
- ★ Health provider Names.

Fill all the details and **Save** and a confirmation message will appear, click **OK**.

The screenshot displays the 'Profile Entry' form in the RCH Portal. The form includes a navigation bar with tabs: Home, Data Entry, Content Upload, Verification, Admin, and Master Entry. The state is set to Maharashtra (27). The hierarchy details are: District : Ahmदनगर >> Rural/Urban : Rural >> Health Block/Ward : Akole >> PHC : Bramhanwada >> SubFacility/SubCentre: Belapur (1622) >> Village : Badgi (32155).

The form fields are organized into sections:

- Health Provider / ASHA Details**
  - Name of ANM : \* (Select dropdown, 93431,93436)
  - Name of AWW : \* (saaa text input, dropdown arrow)
- Financial Year** (2014-2015 dropdown)
- Population of the Village : \*** (1987 text input)
- Total No. of Eligible Couples : \*** (56 text input)
- Estimated No. of Pregnant Women \*** (empty text input)
- Estimated No. of Infants \*** (empty text input)

A modal message box titled 'Message from webpage' is displayed in the center, showing a yellow warning icon and the text 'Record Saved Successfully!'. An 'OK' button is at the bottom of the modal. A blue arrow points from the 'OK' button in the modal to the 'OK' text in the instruction above the form.

## Eligible Couple Entry:

### Case 1: For New Registration of Eligible Couple

Once user will fill and save **Population entry** details, next step is **Eligible Couples** from Data entry type drop down:

Click on **Data Entry** Tab that will appear on top of the screen.

The screenshot shows the 'Reproductive and Child Health' portal. The 'Data Entry' tab is highlighted. The 'Data Entry Type' dropdown is open, and 'Eligible Couples' is selected. A yellow callout box with an arrow points to the 'Eligible Couples' option, containing the text: 'Select **Eligible Couple** from drop down menu'.

Eligible Couple RCH ID Number (Auto generated), will be same for Pregnant Women as well. No any further ID will be generated for Pregnant Women. It means entry in Eligible Couple will be mandatory.

Click on '**Submit**' button

The screenshot shows the bottom section of the form. The 'Data Entry Type' is set to 'Eligible Couples'. The 'Submit' button is highlighted with a red box and an arrow.

**The following details will appear on the screen "Section-I(Index) Tracking of Eligible Couples (EC) and use of Contraceptives (EC-1)"**

For Eligible Couple Registration following information is mandatory (\*).

- ✓ Register serial no
- ✓ Date of Registration (As per RCH register)
- ✓ Financial Year.
- ✓ Select ANM/ASHA.

- ✓ Name of Wife.
- ✓ Name of Husband.
- ✓ Address.
- ✓ Select Whose Mobile.
- ✓ Mobile Number.
- ✓ Wife Age (Current).
- ✓ Husband Age (Current).
- ✓ 'Year' is disabled as it is picked from “Date of registration” automatically.

## Child Entry

Two ways access to this page:

(1) Go to Data Entry Page choose Child entry on the basis of selected Hierarchy. Click on the **Data Entry** tab of the Main Menu screen

The screenshot shows the 'Data Entry' page of the RCH Portal. The 'Data Entry' tab is highlighted in the top navigation bar. A red arrow points to this tab. The page contains several dropdown menus and radio buttons for selecting location and facility details. A yellow callout box with a red arrow pointing to the 'Data Entry Type' dropdown contains the text: 'For Child registration, select Data entry type from dropdown option: **Child Entry** and Click Submit button.' The 'Data Entry Type' dropdown is currently open, showing options like 'Child Entry', 'Profile Entry', 'Eligible Couples', 'Pregnant Woman Entry', 'Health Provider / ASHA Entry', 'Direct Data Entry', and 'Bank Details Entry'. The 'Child Entry' option is highlighted in blue.

By clicking on the **Submit** button, the following screen will appear:

The screenshot shows the 'Child Registration' form. On the left, there is a sidebar with a tree view showing 'Section - II' expanded, and 'Child' expanded, with 'Child Registration' and 'Child Tracking' listed. The main form area contains various fields for child registration, organized in a grid-like structure. Fields include: 'RCH ID No. of Child' (auto-generated), 'Date of Registration' (calendar icon), 'Name of Child', 'Mother's Name', 'Whose Mobile' (dropdown), 'RCH ID No. of Mother', 'Address', 'Date of birth of child' (calendar icon), 'Place of birth' (dropdown), 'Religion' (dropdown), 'Health Provider Name' (dropdown), 'Enrollment Number', 'Status' (dropdown), 'S No. of Child in RCH Register', 'Financial Year' (dropdown), 'Sex of Child' (dropdown), 'Father's Name' (with 'Not Available' checkbox), 'Mobile No.', 'Birth Certificate No.', 'Weight at birth (kg)', 'Caste' (dropdown), 'ASHA Name' (dropdown), and 'Child Aadhaar No.'. At the bottom right, there are 'Save' and 'Clear' buttons.

## For Child Registration following information is mandatory (\*)

- \* S. No. of RCH (As per Register).
- \* Registration Date (Date should be greater than or equal to date of birth).
- \* Name of child
- \* Mother's name.
- \* Father name.
- \* Sex of Child
- \* Whose Mobile.
- \* Mobile no.
- \* Address.
- \* Health Provider Name
- \* ASHA Name
- \* Date of Birth.
- \* Weight (Kg)
- \* Birth Place.
