**Q19. Are PMJJBY policies being introduced and serviced in association with foreign insurance Companies?**

There are no foreign insurance Companies directly operating in India. As permitted by the Insurance Act and IRDA Regulations there are some foreign Companies in joint ventures with Indian companies, where the stake of foreign insurers is restricted to 49% only.

**Q.20. Contrary to other Life Insurance products, benefit under PMJJBY is payable only to nominee of the insured on the death of the insured. Why is there no maturity benefit or surrender value, which is available in normal life insurance policies?**

The cover under PMJJBY is for death only and hence benefit will accrue only to nominee. PMJJBY is a pure term insurance policy, which covers only mortality with no investment component. The pricing is also accordingly low when compared to other life insurance policies where maturity benefits, surrender value etc.is available. It has been designed to provide life insurance cover to weaker sections of the society. With this aim, the premium is kept low, eliminating the investment component.

**Q.21. Will the PMJJBY scheme which is being promoted aggressively and sold in large numbers accrue huge profits to the foreign insurance Companies who in joint venture with Indian entities have floated life insurance companies and are operating this insurance cover?**

Only Indian Insurance Companies as defined in the Insurance Act can operate in India. The policy holders' funds of all such insurance companies operating in India including those with foreign partners within the 49% cap are to be invested in India as per regulations and cannot be invested abroad. The premium charged for PMJJBY has been worked out based on actuarial calculations taking into account all risk factors, current mortality rates and adverse selection. Thus there is no scope for any huge profits accruing from the scheme.

**Q.22. Why are foreign insurance Companies associated with PMJJBY when LIC which is a government owned corporation could have managed this scheme launched by the government?**

There are 24 Life insurance companies operating in India, who are licensed by IRDAI to carry on life insurance business in India. To promote competition and better pricing and service to customers, all these companies are permitted to participate. Moreover, they are all Indian insurance companies. Their foreign partners, if any, have only a stake in these companies within the stipulated 49% cap. However, LIC is still the primary insurer involved in operation of the scheme.

**Q.23. In case of non-settlement of claims is it possible to proceed legally against the foreign insurers in India?**

There are no foreign insurance Companies directly operating in India. As permitted by the regulations there are Companies operating as joint ventures with Indian companies, where the stake of foreign insurers is restricted to 49% only. By definition, these are Indian insurance companies. All these companies are subject to Indian laws and there is no bar against proceeding legally against them.

**Q.24. Rates of premium may be increased, or the Companies may discontinue the schemes in future.**

Insurance is like any other product. While rates can go up in future, with 24 life insurance Companies operating in India, due to competition among them, prices are likely to remain stable. It is expected that with the design of the PMJJBY cover and its pricing, the scheme will be viable, and there is little chance of discontinuing. In any event, even if a particular company discontinues, banks have several other options to tie up with.
