(Scholarship for Promotion of Aptitude & Research in Stamps as a Hobby)

Philately is the collection and study of Postage stamps. It also entails the collection, appreciation and research activities on stamps and other related philatelic products. The hobby of collecting stamps includes seeking, locating, acquiring, organizing, cataloguing, displaying, storing, and maintaining the stamps or related products in thematic areas. Stamp collection as a Hobby has lot of educational benefits as it teaches a lot about the socio-economic-political reality of the period in which the stamp is issued or the theme on which it is issued. Maintaining a collection can be a relaxing activity that counteracts the stress of life, while providing a purposeful pursuit which prevents boredom. The hobby leads to social connect between people with similar interests and the development of new friendships. Collecting also hones the memory skills by working on the need of the human brain to catalogue and organize information and give meaning to our actions.

Reinforcing the efforts aimed towards increasing the reach of Philately, the Department of Posts is launching a scholarship scheme called Deen Dayal SPARSH Yojana to award children in the class categories of Standard VI to IX.
